Networking Platforms: The university facilitated the creation of online platforms (Alma Connect, Instagram, Facebook, LinkedIn) where alumni could interact, share opportunities, and offer support to one another. This continuous engagement has strengthened the alumni network and provided a robust support system for all members

The impact of these alumni interactions has been profound, with increased opportunities for current students, enhanced visibility for the university, and a strengthened sense of belonging among the alumni. As we move forward, we aim to build on this momentum and continue to create avenues for our alumni to contribute and stay connected with their alma mater.
